Washington, D.C. 20554

Re: *Accelerating Wireline Broadband by Removing Barriers to Infrastructure Investment*;
WC Dkt. No. 17-84

Dear Ms. Dortch:

On June 28, 2017, Mark Nielsen, Executive Vice President and Chief Legal Officer; Chris Levandos, Executive Vice President, Field Operations; Ken Mason, Group Vice President, Federal Regulatory; and I, representing Frontier Communications, met with Commissioner Michael O'Rielly and Amy Bender, his Wireline Legal Advisor.

Frontier provided an overview of its current and future business operations. In that context, Frontier described how rationalizing ILEC pole attachment rates would encourage broadband deployment and remove unnecessary competitive distortions. All statements were consistent with Frontier's recently filed comments in this docket.¹

Please contact me with any additional questions.

Sincerely,

/s/

Mike Saperstein

cc: Amy Bender
